

Lending Rate Model & Charges applicable to customers

The model used by Chola for determining the Lending Rate for different segment of customers/products/geographies and the approach for gradation of risks is given below.

Methodology:

1. Lending Rate

The Lending Rate for each major segment is calculated as an aggregation of the following cost factors:

a. Weighted Average cost of capital –

The Company borrows funds through Bank Term loans, Non-Convertible Debentures and Commercial paper and subordinate debt, etc. from the investors.

Additional to the borrowing, the Company also has equity portion and the cost of such equity is considered to arrive at the weighted average cost of capital.

b. Fund raising cost

It includes processing fees on term loans, brokerage to source funds through NCDs / Deposits, CPs, Rating Fee, trusteeship fee, IPA commission on CPs, exchange listing fee etc.

c. Negative Carry on Investment

The Company keeps liquidity buffer in the form of investments into liquid funds in compliance with RBI guidelines and to manage liquidity risk and has to bear negative carry on those investments too.

d. ALM mismatch cost

The Company borrows funds through short term and long-term products and to comply with the regulatory guidelines, it needs to manage ALM gaps under certain limits imposed by the regulator, while taking in to account the prepayments made by the customers.

e. Operating Cost

It includes employee expenses, branch related fixed and variable costs, operations costs, sales and marketing expenses, technology expenses, expenses related to sourcing and recovery, etc.

f. Credit Risk Premium

Based on risk gradation of the customer which is detailed in Section 2(a), credit risk premium is computed on a case-to-case basis

g. Expected ROA

Expected Return on assets is the minimum return expected by the company on its assets.

2. Approach for gradations of risk and rationale:

- a. The Lending Rate will be different for different categories of borrowers. The lending rate will be arrived by considering the following:

i. Customer Attributes:

Profile & segment of the customer, Tenure of customer relationship, Past repayment track record of the customer, Financial strength, Market reputation, Prior vehicles / equipments owned, Primary and additional income sources, Land / Property ownership, Geography of the customer

ii. Business Viability of the customer:

Nature of business activity, Contracts held, Experience in business, Profitability of business and certainty of cashflows, Inherent credit and default risk in the business

iii. Asset Attributes:

Type of asset (e.g. make/model of vehicle or commercial / residential / mixed use properties), Age of the asset, Location of asset, Usage of asset that is being lent against by the Company

iv. Loan Attributes:

Loan-to-Value (LTV) ratio, Tenure of the loan, Type of transaction, Ancillary business opportunities, future potential, group strength and value to lender group

- b. The Lending Rate is determined on a case to case basis and will depend upon considerations of any or combination of a few or all factors listed out in point 2-a above. The current Indicative Lending Rate Range is given in Annexure 1.

3. Revision to Lending Rate

- a. The revision to Lending Rate would be decided periodically, depending upon market volatility and cost to company.
- b. Any revision in the Lending Rate will be updated in the website.

4. Revisions shall be prospective

Revision of interest rate and other charges would be prospective in effect and intimation of change of interest or other charges would be communicated to the customer in a mode and manner deemed fit.

5. Annualised Rate

The interest would be charged on monthly/quarterly/half yearly rests or on maturity, depending on product features and customer preferences. However, the customer would be provided an annualised rate of interest in the sanction letter. Annualised Percentage Rate (APR) will be part of the Key Facts Statement (KFS) shared with customer.

6. Fee & Charges:

The charges applicable to customer will be communicated in the Key Fact Statement (KFS). Any revision in these charges or any other applicable charges would be implemented prospective basis with due communication to customers

Fee (pre-Disbursement)	Description
Sourcing Fee	Sourcing Fee includes the cost related to below activities which are performed by the company once the customer has shown interest in availing the facility. These costs are incurred by the company before the customer takes his loan disbursement. - Visit to customer (Employee travel expense)

Notes:

- 1) POS- Principal Out-Standing
- 2) Goods and Services Tax (GST) and other cess will be charged as applicable for all the above charges. Any revision/addition to the contents of this schedule of charges including revision in the charges will be communicated from time to time.
- 3) All applicable taxes, duties, levies, surcharges and cess including but not limited to goods and services tax (GST) as amended from time to time will be additionally charged on the taxable amounts specified herein above.
- 4) "Pre-termination Value" means the amount calculated either on "POS Basis" in respect of the Equipment or on "NPV Basis" in respect of the EV / motor vehicle based on the discretion of the Lessor and such selection made by the Lessee at the time of signing this Agreement. However, such a selection made by the Lessee at the time of signing of the Agreement shall be final and binding at all times during the Lease Tenor.

"POS Basis" means the aggregate of:

- (i) outstanding Acquisition Cost of the Asset as on the date of pre-termination, calculated for the unexpired Lease Tenure as per annuity method;
- (ii) penalty as per pre-termination rate provided in the respective Lease Schedule;
- (iii) any other dues as on pre-termination date; and
- (iv) applicable Taxes.

“NPV Basis” means the aggregate of:

- (i) present value of all future outstanding Lease Rentals payable under the respective Lease Schedule discounted at pre-termination rate provided in such Lease Schedule;
- (ii) any other dues as on pre-termination date; and
- (iii) applicable Taxes.

Annexure 3:

EOD for Housing Loan (HL):

- Notwithstanding anything to the contrary contained in this Agreement, Penal Charges shall be charged at the rate specified in the Schedule, from the date of final disbursement/registration till the actual receipt of original sale deed/document, in case of failure on the part of Borrower/s to obtain the final sale deed/document from the sub-registrar’s office beyond due date, i.e., 30 days of from the date of registration.
- If the Borrower/owner of the Asset sells, encumbers or transfers or seeks to sell, transfer, create encumbrance, on the mortgaged property in any manner whatsoever without the express consent in writing of the Company; or
- If any attachment, distress, execution or other process against the Borrower/owner of the Asset/s;
- If a receiver is appointed in respect of the whole or any part of the Property / Assets of the Borrower or if an attachment or distraint has been levied on the Assets of the Borrower / Guarantor / owner of the Asset;
- If any circumstance or event occurs which is prejudicial to or impairs or imperils or jeopardizes or is likely to prejudice, impair, imperil, depreciate or jeopardize the interest of the Company or any security given by the Borrower/Guarantor of any part thereof;
- If the Borrower fails to pay any tax, impost. duty or other imposition or charges/ outgoings or to comply with any other law, regulation, formalities required to be completed in respect of the hypothecation under law from time to time;
- The breach of, or omission to observe, or default by the Borrower/Guarantor in observing any of its positive or negative covenants, representations, warranties, any term or condition in respect of the Loan under this Agreement or the terms of sanction.
- On the Borrower failing to complete the construction of house within 18 months from the date of first disbursal of Loan.
