- (c)
- Other short-term liabilities, if any as a % of total public funds, total liabilities and total assets:

Other Short-term liabilities as a % of total public funds	1.32%
Other Short-term liabilities as a % of total liabilities	1.29%
Other Short-term liabilities as a % of total assets	1.12%

(vi) Institutional set-up for liquidity risk management:

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the Company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of availing funding in line with the tenor and repayment pattern of its receivables and monitors future cash flows and liquidity on a daily basis. The Company has developed internal control processes and contingency plans for managing liquidity risk. This incorporates an assessment of expected cash flows and the availability of unencumbered receivables which could be used to secure funding by way of assignment if required. The Company also has lines of credit that it can access to meet liquidity needs.

Notes:

- 1) "Significant Counterparty" and "Significant Instrument/Product is as defined in RBI Circular RBI/2019-20/88 DOR.NBFC (PD) CC.No.102/03.10.001/2019-20 dated November 4, 2019 on Liquidity Risk Management Framework for Non- Banking Financial Companies and Core Investment Companies
- 2) Total Borrowing is on Principal Outstanding basis
- 3) Public Funds, for the company is same as Total Borrowings
- 4) Total Liabilities has been computed as sum of all liabilities (Balance Sheet figure) less Equities and Reserves/Surplus.
- 5) Other short term liabilities is Total Short Term Liabilities less Short Term Borrowings
